Title	The motorization preferences for V-Class cars are not displayed when the user selects it.
Description	<p>There are following steps are required to reproduce the bug:</p> <ol style="list-style-type: none"> 1. Open the Safari browser on iOS. 2. Go to the link following link: https://www.mercedes-benz.co.za/passengercars/test-drive.html?group=all&subgroup=all_saloons&view=BODYTYPE 3. Select the V-Class car. 4. Select any available dealer. 5. On the 3rd screen, select the motorization preferences button (having blue marker icon) under the upon request label. <p>– Actual Result (bug): The motorization preferences are not opening for V class car.</p> <p>– Expected Result: The motorization preference should open for it.</p>
Severity	Blocker
Bug Screenshot	 <p>The screenshot shows a mobile interface for requesting a test drive appointment. At the top, there's a progress bar with four steps: 1 (checkmark), 2 (checkmark), 3 (active, blue circle with '3'), and 4. Below the progress bar, the text reads 'Your Test Drive Appointment Request V-Class'. A silver Mercedes-Benz V-Class van is displayed. Underneath the van, there's a button labeled 'Upon request' and the text 'V 200d'. A blue pencil icon is circled in red next to the 'V 200d' text. At the bottom, there's a 'Request a vehicle' button and a browser address bar showing 'mercedes-benz.co.za'.</p>

Title	The motorization preferences like fuel and transmission should be selected by default if there is only one option available
Description	<p>There are following steps are required to reproduce the bug:</p> <ol style="list-style-type: none"> 1. Open the Safari browser on iOS. 2. Go to the link following link: https://www.mercedes-benz.co.za/passengercars/test-drive.html?group=all&subgroup=all_saloon&view=BODYTYPE 3. Select EQA car. 4. Select any available dealer. 5. On the 3rd screen, select the motorization preferences button (having blue marker icon) under the upon request label. <p>– Actual Result (bug): The fuel and transmission are not selected by default even if there is only one option available.</p> <p>– Expected Result: Just like a model, the fuel and transmission should be selected by default if there is only one option available.</p>
Severity	Normal
Bug Screenshot	 <p>The screenshot shows the 'EQA' motorization preferences screen. It has a title 'EQA' and a subtitle 'Choose your motorization preferences'. There are three rows of options, each with an icon, a text label, and a right arrow. The first row is 'Fuel' with a fuel pump icon. The second row is 'Transmission' with a transmission icon. The third row is 'Mercedes-Benz EQA 250 (H...' with a car icon. The 'Fuel' and 'Transmission' options are circled in red. At the bottom, there is a 'Reset all filters' link and a blue 'Apply' button with a speech bubble icon. The status bar at the top shows 'vodafone.de', '1:31 AM', and '50 %' battery.</p>
